British Press Clamors for Their Trial by Government on Charge of Piracy

LONDON, March 10.—Captain White of the British steamer Overdale, now in America today laid claim to the \$2,500 prize offered by a shipping publication for the first unarmed merchantman sinking a German submarine. Captain White cabled here today that the Overdale rammed and sunk a submarine in the Irish sea on New Year's day.

LONDON, March 10.—Two German submarines of the Kaiser's blockading squadron, have been sunk in the English channel.

And three more British steamers have been torpedoed and sent to the bottom by sister ships of the two submarines which paid the penalty.

The two submarines which were sunk were the U-20, one of the more powerful of the German submarine fleet, and the U-8, an older vessel. Crews of both were saved and made prisoners.

Sunk by Destroyer Ariel

The U-20 was rammed and sunk in the channel today by the Ariel, according to admiralty announcement. While there are three vessels in British registry named Ariel, it is believed that a British destroyer of 730 tons, which has been assigned to the task of hunting down the submarine blockaders, is the one referred to by the announcement.

The U-20 had a cruising radius of 2,000 miles. She was of the same class as the U-21, whose exploits have made her famous. Another submarine of the same class, the U-19 was sunk by a British patrol ship November 23, 1914.

The U-8 was of the same class as the U-9, famous underwater craft which destroyed the British cruisers Cressy, Aboukir and Hogue.

Twenty-nine officers and men of the U-8 were made prisoners when the submarine was sent to the bottom. Dispatches from Amsterdam today carried a claim from Berlin that the U-8 alone had sunk five British steamers in the channel before she was destroyed.

CHUBBUCK HERE TO DIRECT WORKERS AT RUBBER MILLS

National Organizer of the American Federation Urges Union Men to Picket Peacefully

John D. Chubbuck, national organizer of the American Federation of Labor, is today in charge of the union's end of the controversy between the organized workers and the La Crosse Rubber Mills company at North La Crosse. The locked out rubber workers are behaving in an orderly manner and there has been no physical trouble between the locked out employees and those who are still holding their positions.

Peaceful picketing of the plant is being indulged in by the rubber workers and today several employees were persuaded to join the ranks of those already out who have been holding daily meetings at Fielstad's hall in North La Crosse, which has been rented by the union.

To Elect Committees

Organizer Chubbuck at the meeting last night advised the "strikers" to be peaceful and at tonight's meeting the rubber workers will elect committees to treat with the employers in an effort to arbitrate their differences with the company and get an understanding.

Attorney Fred H. Hartwell has been retained by the rubber workers in an advisory capacity and Organizer Chubbuck is in session with him today.

Work at the mills continued today in the sections of the shops where the employees were retained by the management. They were not molested by the strikers, although occasional cries of "scab" and "unfair" together with hisses were directed at them as they went to work and returned.

The company has not changed its attitude toward the workers and it was said at the plant that although the management was anxious to take the men back as individuals they could not be recognized as a union.

KING SOLOMON WITNESS

ST. PAUL, Minn., March 10.—Mamie Brown today has a divorce because King Solomon helped her. Mamie's husband was William H. Brown. The chief witness was King Solomon Brown. The witness refused to use his initials "K. S.," insisting that he be referred to as "King Solomon."

GRAIN CLAIM REPEATED

CHICAGO, March 10.—Standing firm under cross examination by Judge A. E. Helm of the Kansas commission, E. B. Boyd, railroad statistical expert, reiterated his claims today in the western rate hearing that grain is not "standing on its own bottom and paying its own way," in freight revenues.

Assembly Refuses to Kill Bill to Repeal \$45,000 Appropriation After Stormy Session

MADISON, Wis., March 10.—(Special.)—The assembly today refused to kill the Bradley bill to repeal the appropriation of \$45,000 for a physical education building in La Crosse.

Assemblyman Bradley opened the debate in favor of the passage of his bill to repeal \$45,000 for a physical educational building at La Crosse. He said there was no need for such a structure. Assemblyman Kurtenacker of La Crosse took issue with Assemblyman Bradley's statement.

He said the La Crosse institution was overcrowded. More room was needed to teach the science of physical training. The school "needs the appropriation to carry out the present plans," he said. He also showed the rapid development of the school.

Assemblyman Piper of Dunn said that there never was a greater cause inflicted on the people of Wisconsin than the teaching of physical training. He thought the state should not vote another dollar for "such nonsense. Assemblyman Frechhoff said that the people of La Crosse never heard of such yarns as had just been told by Assemblyman Piper. Assemblyman George Harrington, Walworth, opposed the appropriation.

Assemblyman Van Gorden of Jackson county also favored balloting out the appropriation. By a vote of 39 to 54 the assembly refused to kill the bill. Assemblyman Kurtenacker moved a reconsideration and the bill will come up later.

ANTITOXIN FOR MEXICANS

WASHINGTON, March 10.—The Red Cross today sent 2,000,000 diptheria antitoxin units to El Paso for use in Chihuahua, Mexico, where an epidemic is reported raging. In Mexico's vicinity, 300 cases are reported. The Red Cross announced today it will send two hospital staffs to Belgium.

GERMAN CRUISER ADMITS SINKING AMERICAN SHIP

The Converted Liner Eitel Friedrich Slips Into Hampton Roads with 326 Prisoners

MAY INTERN FOR BALANCE OF WAR

Little Known About Visit Except That Vessel Is Short of Fuel and Needs Repairs

NEWPORT NEWS, Va., March 10.—Officers of the German converted cruiser Eitel Friedrich this afternoon confirmed reports that the American sailing ship William P. Frye was among the craft sunk by the Eitel.

It was said to have been sunk in the South Atlantic January 27, because it was alleged to be carrying contraband.

Captain Kiehn, his wife and crew of 25 were saved.

The Frye sailed from Seattle for Queenstown November 6 with a wheat cargo.

Collector of the Port Hamilton reported fully to Washington on the case.

LONDON, March 10.—Lloyd's ship registry lists a William P. Frye as a four masted sailing vessel of 3,374 tons and gives her port of registry as Bath, Maine.

NEWPORT NEWS, Va., March 10.—After dopping for months from the war news and being repeatedly reported sunk, the German converted cruiser Eitel Friedrich slipped quietly into Hampton Roads today.

Her arrival was unheralded, not even the German consul, it was said, having been advised that she was in local waters.

Further than that she was short of fuel, that she needed repairs and that she had on board 326 prisoners, so much secrecy was observed, little could be learned concerning her.

Crews of Sunk Ships

The prisoners were members of the crews of vessels sunk by the cruiser.

After complying with the quarantine regulations at Old Point Comfort, the war vessel steamed up to this port and dropped anchor off the local ship building plant.

The revenue cutter Onondaga ran alongside and the captain conferred with the Eitel's commander. Later Customs Inspector Hamilton went on board and gathered material for a report to Washington.

There was an unconfirmed rumor that the cruiser was chased to the Virginia Capes by a British cruiser.

The Eitel is fitted with three 8-inch and ten 5-inch guns, is of 9,000 tons displacement and carries 350 seamen and officers.

With Von Spee

She left Tsing Tau seven months ago, was said to have been with Admiral Von Spee off the Falkland islands and has been heard from at various times since, engaged in the destruction of British and French shipping.

If she wants coal and provisions she is entitled to remain in port only 24 hours, local officials said, but if she requires repairs, the time may be extended by the customs collector.

The landing of prisoners, which it was supposed to be desired, it was stated was a matter for the immigration department, but it was taken for granted there would be no difficulty concerning this matter and that the diplomatic representatives in this country of the various nationalities will assume charge of the men.

The question whether or not the Eitel would intern was much discussed. The surmise was generally affirmative. It was pointed out that even assuming no British warship was in the vicinity at the time of the vessel's arrival, they would be sure to run it down quickly now it has once been definitely located.

WASHINGTON, March 10.—The German embassy received a message from the Kaiser's consul at Norfolk, Va., today announcing the Eitel Friedrich's arrival at Newport News.

The embassy was convinced it would leave within the twenty-four hour limit.

From Admiral Beebe in command of the Norfolk navy yard, the bureau of operations of the navy department received the bare announcement that the Eitel Friedrich had arrived at Newport News and that a revenue cutter was alongside.

Secretary Daniels immediately consulted the president concerning the craft's presence at an American port. He stated later that the department's neutral board had the matter already under consideration.

Asked to Make Repairs

Secretary of the Navy Daniels this afternoon received from the Newport News Ship Building company a message saying the company had been asked to make repairs on the German converted cruiser Eitel Friedrich.

The company sought the secretary's instructions. In turn, he passed the request on to the neutrality board, consisting of Captains Oliver and Knapp of the navy and J. B. Scott of the state department.

HOSPITALS FILL WITH SUFFERING VICTIMS AS DOPE SUPPLY ENDS

CHICAGO, March 10.—One more week—and Chicago's thousands of dope fiends will be "on fire." One more week—and the city, already crime swept, will see a series of "stickups," drug store robberies and other worse crimes committed by maddened hop fiends, now cut off from their supply of narcotics through operation of the Harrison law.

Such, in brief, were the predictions today of Superintendent H. I. Davis of the Cook county "psycho" hospital and other physicians, already dealing with scores of victims of the drug habit.

Under Davis' charge today, a score of trembling, pale faced men and women were under treatment. Davis was confident he could work a cure in time. He threw the gates open.

MANIAC FIGHTS ALL WHO ATTEMPT TO CAPTURE HIM

Albert Valeski Then Tries Suicide in Rooming House After Holding Police at Bay

FIRE HOSE IS THEN CALLED IN

Two Departments Arrange to Flood Room When Mad Man Barricades Himself

Becoming suddenly insane in his room at the boarding house of Mrs. Julius Geisenheimer, 513 King street, last night, Albert Valeski, 28, a native of Poland, cut his throat with a pocket knife at 1 o'clock this afternoon after members of the police and fire department had made preparation to turn a stream of water into the room to "drown him out."

More than an hour the maniac held at bay the entire police force and fire department of La Crosse while several hundred persons had collected in the street to watch the seige of the rooming house.

Detectives McGrath and Fitzsimmons, Captain Dugan and uniformed men who attempted to approach Valeski were threatened with violence through a large bladed jack knife with which the mad man had armed himself.

Attacks Police Detective

The police and firemen hesitated to enter the room by means of the window for fear someone might be either killed or severely injured.

Fitzsimmons and members of the fire department set a fire ladder against the window and Fitzsimmons was nearly thrown from this as he ascended to the attack. His quarry seized the upper end of the ladder and tried to throw it down after breaking the window with his fists.

Valeski had barricaded himself in a hall bedroom, and managed to block all attacks from the policemen. Brandishing the knife which he afterwards used to cut his throat, he threatened those who tried to get him to come into the hallway. Valeski did not recognize fellow countrymen who roomed at the same house.

Bluecoats Are Victors

Police Captain Larry Dugan, Patrolman Frank Wolf and Detective William Fitzsimmons finally captured Valeski.

A strong iron bed had been placed against the door, and everything movable in the room had been thrown on the bed to make it secure. Valeski imagined someone wanted to kill him. He muttered incoherently, but could not be understood in either English or Polish.

It was found that the wound would not be mortal.

Valeski has been a resident of La Crosse for two years and has resided continuously at the Geisenheimer boarding house. His actions until late last night were normal, and he was a favorite of the roomers.

Valeski bit and kicked those who held him in the police car on the way to the St. Francis hospital. He was later taken to the county jail and placed in a straight jacket.

HE SPENDS \$300 IN THREE DAYS THEN IS NABBED

Forger Caught by La Crosse Police Goes Home Broke to Account for Big Sum

Frank Anderson, Aleda, Ill., in custody of Deputy Sheriff J. B. Peppers of that place, is on his way back to Aleda today to make accounting for \$300 which he has spent in the last three days, partly in La Crosse.

Anderson forged a check for that amount and passed it on a merchant at Aleda and then proceeded to spend the money. When arrested by La Crosse police detectives last night he had a single silver dollar left of the whole "roll." His belongings were inventoried in the police catalog as "one dollar and stuff."

He went back to Illinois willingly as he was "almost broke," according to his own word.

CARRANZA AGREES TO U. S. DEMANDS FOR FOREIGNERS

Pacific Note on Way Today Believed to Promise Protection for Life

OREGON HAS LEFT MEXICO CITY?

Carranza Concession May Be Too Late to Be Considered Victory for Administration

ZAPATA REPORTED IN CHARGE

Washington Welcomes the Control of Rebel Chief Because He Preserved Order Formerly

VERA CRUZ, March 10.—Carranza is ready to meet the United States half way and probably more. He is willing to give all possible protection to foreigners.

This is to be Carranza's answer today to the sharp and almost peremptory note from Washington, said in some quarters to amount almost to an ultimatum. It was stated that Carranza's reply will be given out at noon today, and that its tone will be most pacific.

News that more American war vessels were speeding here caused little public excitement. The city was quiet.

Favorable Note on Way

WASHINGTON, March 10.—General Carranza is reported to have agreed to meet the demands of the United States. His formal reply to the latest note from this government is on its way to Washington. A preliminary message from Consul Stillman says that it is favorable.

Oregon Out of Mexico City

But whether the concession comes in time to make the Carranza concession a victory for the administration's Mexican policy is problematical. Unofficial reports say that Oregon already has evacuated Mexico City, and that Zapata now controls the capital. If this is so, responsibility for protecting foreigners there now rests with Villa.

Officials were hopeful that Zapata actually had re-entered the capital. He had been there before and had enforced law and order. Officials believe he will be able to do the same again if given the chance.

But the biggest gain through Villa-Zapata occupancy of the Mexican capital, officials here point out, will be the almost immediate restoration of communication with El Paso and the United States.

Americans Disregard Warning

Announcement that Americans had been warned to leave Mexico City was stated today to be a continuance of the regular policy of the administration. The warning to leave was coupled, the state department says, with a promise that transportation would be secured through Carranza, but no one agreed to accept.

The administration believes that it will be able to solve the present serious situation through the representations now in progress with both Carranza and with Villa. Not a single high official will admit that there is the slightest possibility of intervention.

Asks Steps to Force Order

NEW ORLEANS, La., March 10.—The Catholic church of America, through Cardinal Gibbons, has formally requested President Wilson to take steps to "restore peace and order in Mexico." It was announced in a statement given out by the cardinal here today, following a long conference with Jose Maria y Del Rio, prominent dignitary of the church in Mexico.

"I do not hope for peace under the present revolutionary leaders," said Cardinal Gibbons.

In the Mountain.

"It's terribly bleak and cold up in the mountains above the clouds. You wouldn't think a flower could live away up there, would you, kiddies?" said daddy, starting the bedtime story.

The kiddies, who were curled up on the divan, hadn't thought much about it, so daddy went on to tell them about the edelweiss, that star shaped flower that is as white as a snowdrift, with a heart of purest gold.

"You see, kiddies, in the beginning of things, so I've read somewhere, every flower had a choice where it should live.

"The grass chose to cover the bare ground with gay little blades of green grass, and the daisies chose to live in the green fields and to be white and gold. The poppy and the buttercups also chose the fields.

"The irises and jack-in-the-pulpits begged to live upon the banks of streams and in the marshes because they love plenty of water.

"The shy, sweet little violets and the forget-me-nots just knew they would die unless they were placed in some ferny, woody, shady spot where they could shrink away from rude winds and the hot sun.

"But the pansies, sweet williams, hollyhocks and roses wished for garden plots, where they would be tended by careful human hands, because, you see, they were quite fragile if left to the care of Dame Nature.

"So all the pleasantest places were selected by the flowers, spots where were moisture, warmth, nourishment and tender human care.

"Then down from the mountain came flying the spirit of the hills.

"Where are my flowers?" he asked. "No flowers have chosen to dwell upon my bleak hills, and that is where flowers are needed."

"But all in a chorus, the hollyhocks and violets and pansies and forget-me-nots and roses, declined to go.

"We would die up there!" they cried. "The hills are so bleak and cold and dreary!" And they all turned their pretty backs upon the spirit of the hills and scampered away to the places they had chosen.

"But away off in one corner was the beautiful starlike edelweiss, who as yet had not chosen her place. Now she came shyly forward, nodding and swaying and bending before the spirit of the hills.

"I will go up in the mountains and blossom there for you, to make your beloved hills more beautiful," said the lovely starry white flower.

"And so when any person wishes to pluck the edelweiss he must show courage equal to that of the flower who knew that it took rare courage to live alone upon the mountain top close to the gleaming stars."

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two it becomes beautifully dark, glossy, and abundant.

NORMAL SOCIETY TO GIVE A PLAY

"Esmeralda" Will Be Presented Friday Evening by the Buskin Club

The normal school dramatic society, the Buskin club, will appear for the first time Friday night in "Esmeralda," at the normal school auditorium. Since the first of the school year the caste has been at work on the play under the direction of Prof. D. O. Coate, head of the English department of the normal. The play is of the old style of romantic drama.

A year ago the play was at the point of production when the illness of Miss Elsa Halik necessitated its postponement.

The cast of characters who will appear Friday night is as follows: Mr. Elbert Rogers, North Carolina farmer..... Wm. Gates

Mrs. Lydia Ann Rogers, his wife..... Bessie Householder

Miss Esmeralda Rogers, daughter..... Elsa Halik

Dave Hardy, young suitor of Esmeralda..... Joe Roman

Mr. Estabrook, a man of leisure..... Kenneth Dickens

Mr. Jack Desmond, American artist in Paris..... Ralph Immel

Miss Nora Desmond, sister of Jack..... Marion Neprud

Miss Kate Desmond, sister of Jack..... Alice Naffz

"Marquis" De Montessin, a French adventurer..... Earl Sellars

George Drew, an American speculator..... Harold Taylor

On the evening of Saturday, March 13th the high school girls will match wit and muscle against the LaCrosse girls.

LAST OF WOLF PACK IS SLAIN BY SPARTA HUNTER

SPARTA, Wis., March 10.—(Special.)—What is thought to be the last member of a pack of wolves which has roamed Monroe and La Crosse counties this winter, was killed Monday, by Guy Quale. The pack originally numbered seven and infested Big Creek and Burns Valley, although they were seen miles from these localities. The mate of the big wolf was killed Sunday, and his being alone, made it easy for Quale to trail the animal. Five of the pack were shot in La Crosse county.

The TRIBUNE'S Daily Short Story

HER LENTEN SACRIFICE

BY JOHN DARLING

(Copyright, 1915, by the McClure Newspaper Syndicate.)

"There is only one thing that I really do not like to do," said Geraldine.

"Then that's the thing for you to do, my dear; that ought to be your sackcloth and ashes this Lent," said Miss Craft, spinster, and Sunday school teacher of Geraldine Bonner and other girls not yet old enough to vote. "What is it?"

"Darning! I hate to darn stockings!"

Miss Craft almost smiled, but her thin lips set themselves again before they had entirely committed such a frivolity. "I thought that might be it, my dear. And now, let me tell you that if you would do your whole duty this Lenten tide you would go out darning by the hour and put away the money you receive for this work, for your Easter offering. It is no sacrifice for a girl like you to save a part of your allowance; you should make yourself do something you do not like to do and earn money thereby. I am a firm believer in teaching the young women what sacrifice means—a firm believer."

Geraldine looked respectfully interested in what Miss Craft was saying. But she was not at all sure that it was her duty to carry out her teacher's wishes.

But the subject occurred to her again, and for some reason or other it kept thrusting itself into her thoughts. How true it was that she had no cross to bear; that she seldom had a sacrifice to make; that her world went along in a singularly smooth path! Perhaps Miss Craft was right when she said darning would show her how to do something gracefully that she did not want to do. It might help her after all. She did not want to be selfish; this might develop her character.

Before the beginning of Lent she had decided to darn stockings for any one who would pay her 20 cents an hour all through the penitential season, and to this end she wrote little notes to her friends and placed a tiny card of advertisement in the church leaflet. She hoped, down in her soul, that she would not find much work to do, but she had determined to take whatever came her way.

One family after another engaged her services for one or two or three or even five or six hours a week, and before she could realize it Geraldine had given up nearly all of her own time. This in itself was a great sacrifice, for the skating was good and she loved to skate. Her little box of money, which she was saving for her Easter offering, was getting heavy.

The family in which Geraldine found the most darning to do was a family of father, mother, four sons and a small daughter. The mother kept no servant and had eyes that did not admit of her darning or doing close work at night. Hence, Geraldine's newly established profession fitted in conveniently with the schemes of the family need.

Each week when Geraldine left the quiet little home on a refined street of the town she left a neat row of stockings ready for the mother to put away. As she began to catch up with the darning in that home her hours of work grew less, and Geraldine was sorry. There was only a small part of Lent remaining and then she would be free again.

The week before Easter Geraldine felt that she could do the darning for the Foster family in less than two hours, and on the day on which she was to go to that home she had planned to have an afternoon's skating.

To her surprise and disappointment when she arrived in the cheerful sewing room, Mrs. Foster showed her a basketful of socks.

"My son James has come home for Easter, and when he comes he always brings his mending and I have it done for him. It is fortunate for me that you are here, Miss Bonner."

Geraldine tried to smile, but the smile was only surface deep. She could see her skating disappearing with all the other days of sport she had planned. But in trying to smile and in attacking her work cheerfully Geraldine could not help feeling that she was strengthening her own will power.

"I'll try to get them all done for you, Mrs. Foster," she said, cheerfully. "This is my last week, you know."

"I do know it—to my sorrow," replied Mrs. Foster. "Oh, James, come in. Miss Bonner, this is my son who has loaded you down with extra work. James, Miss Bonner, who has been helping me for a few weeks with the mending."

James Foster let his eyes dwell longer than was necessary on the lovely face of Geraldine Bonner as she sat in the sunlight in his mother's tiny sewing room. He stepped over to her low rocker and put out his hand. "I am glad to have the pleasure of meeting you—and sorry to have brought you more work," he said, his frank, pleasant smile accompanying his words.

"Oh—don't mind the work. I—well, I'll tell you how much good it has done me, some day, perhaps," Geraldine answered.

"You're fond of darning?" asked

"Hardly—would she, mother?" Mrs. Foster shook her head. "No, son, I guess not. But I'll say for Miss Bonner right here and now that she might love the work dearly, for she has never been anything but cheerful and happy over it, and it has been a pleasure to have her here."

Geraldine made a bow over her work and Mrs. Foster hurried off to attend to numerous duties. James, being at home on a visit, could think of no pleasant way of spending that vacation time than in sitting in his mother's sewing room watching the sunbeams play in and out among Geraldine Bonner's curls as she bent over the homely task of darning.

All afternoon he remained near the girl and at the end of three hours when she had finished the two had become more than mere acquaintances. They were sure that they had found several points of meeting and that they should see each other often while James was at home.

Geraldine was busy during the week, but on Sunday when she made her Easter offering of many dollars earned by herself in performing a task she did not like, she looked up to see James Foster opposite her in church. Afterward he walked home with her in the spring sunshine and they said much to each other that did not pertain to darning socks.

Later, when he returned again to his home town to visit, he asked her to marry him. "I dare to do it, dear, since I know you are a girl who can make sacrifices—otherwise I could not ask you just now. I haven't much to offer."

Geraldine disagreed on that point, but she promised to marry him, and before she became his bride she went to her Sunday school teacher and told her the whole story of the romance.

"For you are responsible, Miss Craft; you did it," she said.

"I'll try to get them all done for you, Mrs. Foster," she said, cheerfully. "This is my last week, you know."

"I do know it—to my sorrow," replied Mrs. Foster. "Oh, James, come in. Miss Bonner, this is my son who has loaded you down with extra work. James, Miss Bonner, who has been helping me for a few weeks with the mending."

THE OUNCE OF
PREVENTION

Slushy streets and overflowing
gutters herald the approach of spring
—and the return of the fly. As the
frost vanishes under the warmth of
the climbing sun, compost and gar-
bage heaps become desirable apart-
ments for the family arrangements
of the domestic pest.

The fly-plague is a matter of dirt.
Its remedy is cleanliness. If you
would not have Mr. Musca wiping his
feet on your sugar or committing in-
voluntary suicide in your cream-
pitcher this summer, do a little
spring housecleaning in the alley.

LET THE WORKMAN
CHOOSE HIS TOOLS

Authorization by the La Crosse
board of education of a protest
against the uniform text-books bill
pending before the legislature is in
line with the attitude assumed by
educators in regard to similar mea-
sures all over the country. It is prac-
tically the unanimous opinion of the
teachers, an opinion based upon ex-
perience in several states, that pre-
scription of text-books by legislative
enactment is not a success.

Assembly bill No. 88 before the
Wisconsin legislature provides that
text-books adopted for use in the
state schools shall remain unchanged
for a period of five years. Disregard-
ing the argument that pull and clever
salesmanship might too easily result
in the adoption of inferior text-books
without proper consideration of the com-
parative merits of competing works

under a system of state selec-
tion, the five year period specified in
the bill before the legislature makes
a strong point against the measure in
the minds of those who are in close
touch with progress in educational
paths. In few other fields is ad-
vancement so steady or so rapid as
in pedagogy. New discoveries in
science and practice are incorporated
into modern teaching in rapid
succession. What was accepted as
good in theory and method is often
left behind or discarded in a twelve-
month. To anchor Wisconsin schools
to an unchanging system for five
years is to commit them to the ob-
solete.

To argue for the bill on the ground
of economy puts an undeserved stig-
ma of wastefulness on such systems
as that prevailing in La Crosse. No
one can charge extravagance to a
system that spends less than a dollar
a year on text-books for each pupil.
In La Crosse, with 5,000 children
in the schools, the annual expendi-
ture for books is about \$3,500.

The workman gets best results
with the tools that fit his hand and
meet his personal requirements for
the work to be done. Arbitrarily to
prescribe what make or shape of tools
he is to use is to limit his efficien-
cy. Books are the tools of the teach-
er. He can be trusted to select the
most effective for his work, and his
preference should carry weight, for
efficiency demands that his means
fit his methods.

A COURT OF
SMALL CLAIMS

Judge Harry Olson, of Chicago's
famous municipal court, has estab-
lished as a branch a small debt court,
in which any man with a claim not
exceeding thirty-five dollars may sue,
and the claimant does not require a
lawyer, since the judge will himself
do the catechizing and establish the
facts. Indeed, while lawyers are not
barred, it is expected that the prac-
tice of the court will result in mak-
ing it not entirely seemly for lawyers
to appear.

Such a court will prove a boon to
the poor man with a small claim,
who has been prohibited from obtain-
ing a judgment by the expense and
bother of litigation, in which attor-
neys' fees would amount to a large
part of what might be recovered and
in which legal technicalities might
delay or thwart justice.

The departure is to be commended.
It is after the English innovation by
which justice in small amounts has
been easily obtained in England for
some decades now. Nor is justice in
small amounts limited to civil claims
in England. It is provided for per-
sonal wrongs also, torts as well as
debts being covered.

In England any man or woman can
swear out a summons against any-
one who, he thinks, has done him a
small wrong, whether assault, slan-
der or what not. The judge himself
extracts the facts without interven-
tion of attorneys and gives judgment
in accordance with the evidence at an
inconsiderable cost.

American courts in the matter of
claims and wrongs large enough to
warrant expense, no doubt give sub-
stantial justice, although even in such
cases the procedure is too technical,
the delays too long, and the expense
too great. But American courts vir-
tually afford no justice in the mat-
ter of small wrongs, and small claims,
not to poor men and women at least.
In America such wrongs go largely
unredressed and such claims unsat-
isfied.

Nor is there a doubt that much of
the widespread pessimism among the
poorer people concerning American
institutions results from the lack.
The popular notion that justice is
only for the well-to-do is really too
well-founded. And the lack grows
out of no insensibility to the poorer
man's rights, but is to be ascribed
to a mere want of proper judicial ma-
chinery.—The Minneapolis Journal.

It isn't necessary to acquire an au-
tomobile in order to run into debt.

A Beggar Man came hungry to my

I gave him bread, and would have
given more.

But Charity, astounded, bade me

"Who knows?" said she. "This man
may be a sinner.

His soul may not be worthy of a din-
ner!

Stay then, until we try the Third De-
gree.

He may not be quite right," said
Charity.

Ought to be Dead

Private Tommy Sims had had
pneumonia, and had been for some
time in the hospital, where they
treated him so well that he was much
averse to the prospect of being dis-
charged as "cured." One day the doc-
tor was taking his temperature and
while Tommy had the thermometer in
his mouth the doctor moved on
and happened to turn his back. Tom-
my saw his chance. He pulled the
thermometer out of his mouth and
popped it into a cup of hot tea, re-
placing it at the first sign of the
doctor's turning. When that worthy
examined the thermometer he looked
first at Tommy and then back at the
thermometer and gasped:

"Well, my man, you're not dead,
but you ought to be."

Oh! Lady, Lady!

Couldn't Waste Dinner

At a Scottish watering place one
summer Macpherson was found
stretched on the sands, puffing his
old pipe.

"Come on, Mac," said his com-
panion, who had just come from
town, "let's go for a sail."

"Na, na," replied Macpherson,
slowly shaking his head. "I have had
a guld dinner at the cost of three and
saxpence, an' I'm takin' no risks."

you need—a dictionary of the Eng-

lish language, containing all the

Only Time Marker

Uncle Roger had been po'ly for
some time and had tried with alac-
rity every sort of patent medicine he
could secure.

An old acquaintance hailed him
with:

"Hello, uncle! How are you-all
nowadays?"

"How is it? Why, bawss, fo' mosly

nuffin' t' me, scusing' somepin tuh

Was a Wonder

Pensively Patrick gazed into the
pigsty and fixed his eye on the fat
little object that snugly snorted to
itself.

"M'm!" he muttered, as shifting
into a different position he viewed
piglet from another angle.

Along came Betty O'Hoyle, but not

even her pretty face could lure Pat-
rick from his contemplations.

"An' how's that, Patrick?" she
asked, slightly piqued by his indiffer-
ence.

"He's a livin' wonder!" came the
emphatic answer.

"Shure, an' how's that, Patrick?"
inquired Betty, drawing nearer the
sty.

"He's just guzzled two pailfuls of
milk, and then I put him in the pail
and he didn't half fill it."

wives to be church workers, if they
won't demand too much assistance at
home.

127 Emily St., Saginaw, Mich.—"Several
months ago my face broke out with eczema.
It got worse and worse. It was a sight, all red
and bleeding. The eczema dis-
figured me for the time being.
It caused much itching and of
course I scratched my face and
irritated it.
"I took a treatment but it
did not seem to help any. I
used several kinds of salves
and soaps and they did no good.
My face began to get worse.
My brother said to go to the drug store
and get a cake of Cuticura Soap and some Cuti-
curea Ointment which I did. I then washed
my face with Cuticura Soap and applied
the Cuticura Ointment and kept this treat-
ment up for some time. After using two
cakes of Cuticura Soap and the Cuticura
Ointment my face was free from the eczema."

When you build your home

you will have many things to think of, things of which you have hereto-
fore thought vaguely, but of which you must now think definitely and
closely. You will be forced to rely upon specialists in the various build-
ing trades for advice in selection and arrangement. The mason,
the carpenter, the heating con-
tractor, etc., will all be glad to
help you and you will need their
help, for each is a specialist in his own
line and knows things about it which the
average man does not know.

Above all, you will need the help of the
architect, for he is the Master Specialist
of home building. Years of study and years
of practice have made him a specialist not
only in design and construction, but in the
multitude of practical details that enter
into every building. He sees them as a
complete whole as no other person con-
nected with the building can. Each of
the tradesmen can advise you in the prob-
lems of his own trade, but the architect
can advise you in the intricate correlation of all of these—to the end you so ardently desire,
the creation of an artistic home—beautiful because practical and harmonious.

The trained architect sees the home as a whole, complete and occupied. He places the furniture in his mind's
eye on the plans. He foresees the effects of decoration and furnishings, and plans for those effects. He foresees
the necessities of housekeeping and provides for them. He can with the most modest priced materials obtain for
his clients' needs a building most appropriate and with enduring charm. He knows not only what heating is
best to use for your building construction and exposure—where the piping can and must go—what kind, size
and shape of radiator for each room, hall, etc.,—but where it can best be placed to exert greatest heating efficiency
with the most artistic and unobtrusive effect.

The leading feature of any home is comfort

There is one feature of a building which more than any other, all architects now, unitedly and strenuously, strive to have adopted.
Every architect knows that no matter how clever the plan, no matter how harmonious or in good taste are the completed structure,
trim and decorations, when the days arrive of cutting winds and sudden temperature drops there will be trouble for his client and
for him if the heating outfit fails to respond. The finer the furnishings, the greater will be the contrast and emphasis on any lack
of heating comfort. Every one of the million outfits of IDEAL Boilers and AMERICAN Radiators now in use in both Americas,
Europe, Australia and Japan is giving topmost satisfaction and the fuel savings have already repaid or are fast repaying the original
cost—everyone is a paying-investment, not an expense. Further, each outfit will give ideal results as long as the building endures
in which it is placed!

Always consult an architect—even before you buy a lot

When you build your home, your first step—even before you buy your lot—should be to employ the trained architect, for he can help you choose the correct
setting for the kind of building you want to erect, as well as to assist you in putting heart into your home by selecting and placing your radiator heating outfit
to do best work with the least amount of fuel and care-taking. Ask your architect—ask any architect what heating he would use if he were building his own
home. His answer will be: "IDEAL Boilers and AMERICAN Radiators are the best that money can buy, yet cost no more. They are fully guaranteed."
Whether your building is a store, office, school, church, flat, farm or city house, etc., ask to-day for free book: "Ideal Heating," full of big facts you ought to
know. Puts you under no obligation to buy.

Ask also for catalog of the stationary, genuine, unfailing ARCO WAND Vacuum Cleaners—at \$150 up.

CAN SAIL WITH GERMAN MUNITIONS

WASHINGTON, March 10.—Captain McAllister, chief engineer of the coast guard service today indorsed

the statement contained in New York news dispatches to the effect that German vessels in port there could put to sea with munition cargoes if they chose, so far as any federal regulation on the subject was concerned. Should they do so, however, he added, they were extremely likely to find a British "reception committee" waiting for them outside.

GET RID OF HUMORS AND AVOID SICKNESS

Humors in the blood cause internal derangements that affect the whole system, as well as pimples, boils and other eruptions, and are responsible for the readiness with which many people contract disease. For forty years Hood's Sarsaparilla has been more successful than any other medicine in expelling humors and removing their inward and outward effects. Get Hood's. No other medicine acts like it.

NORTH SIDE

ROSE STREET DEPOT BOOSTERS TO TELL OF PLANS TONIGHT

Progressive League to Hear of Project for Several North Side Improvements

Reports of the viaduct and the library committees of the North Side Progressive league are expected to be read at the monthly meeting this evening of the league in Woodman hall, Rose and St. James streets.

A committee was appointed at the February meeting to correspond with the management of the Milwaukee road regarding the securing of a new north side station to be located at the viaduct. Superintendent J. A. MacDonald of the La Crosse division of the road some time ago was in La Crosse looking over the ground, stating at the time that it is possible that the road will make the improvement.

At the last meeting of the league it was reported that the Episcopal diocese refuses to relinquish the property at Logan and Avon streets, which was proposed by the league as the site for a new location of the north side branch of the public library, making it necessary for the committee in charge to consider other possible locations. A report on the matter is looked for this evening.

CITY TO COLLECT FULL FIRE LOSS

Damage to Logan School in Recent Blaze Is Estimated at \$3,960

Insurance covering the full amount of the damage to the Logan school in the recent fire will be collected by the city. Following a conference yesterday between the adjuster for the company in which the building was insured, President William Luenning of the board of education and Superintendent of Schools L. P. Benzet, \$3,960 was settled upon as the loss in the fire. This amount will be paid by the company on the \$4,000 policy carried on the school building.

TRUCK AND CAR HAVE CLOSE CALL NEAR CAUSEWAY

Charles Holter, together with his team, narrowly escaped serious accident this morning by being caught between a northbound north side street car and a delivery truck of the John C. Burns company. Prompt action on the part of Motorman Fred E. McGregor prevented a smashup. The truck was backing from the La Crosse Plow company garage on Third street, between Pine and Badger streets.

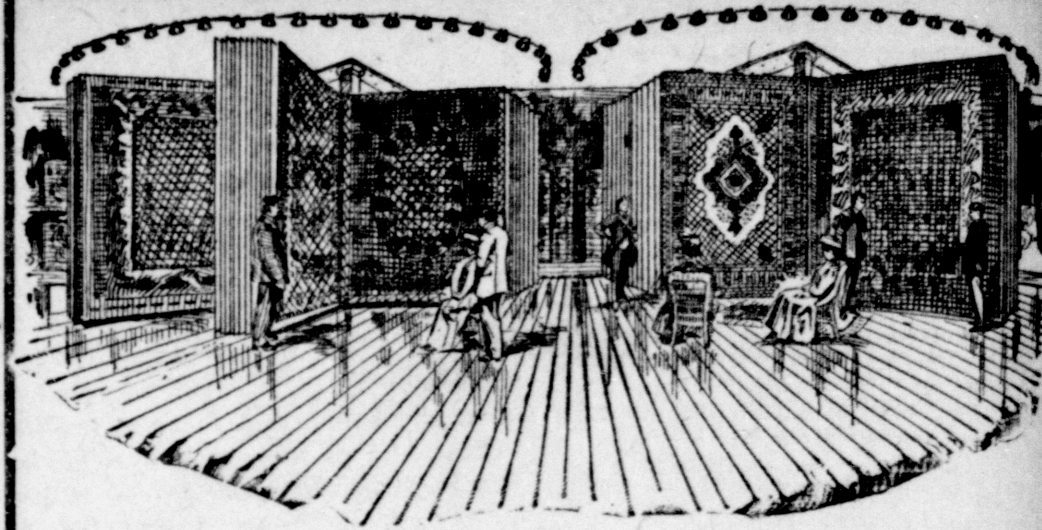

GEORGE HAUSER IS DEAD

George B. Hauser, well known La Crosse county farmer, died Saturday at his home on the North Salem road. Burial was made yesterday in the burial ground on the old Hauser homestead, where he had lived his entire life. Mr. Hauser was born August 20, 1879.

He is survived by his widow, mother, four children, five brothers and two sisters.

PARCEL POST CAUSES HUGE COST TO EXPRESS COMPANIES

Interstate Commerce Commission
Makes Public Table Showing
Big Decrease in Revenues
of Utilities

WASHINGTON, March 10.—Tremendous loss, presumably due to the parcel post, was shown today in a table made public by the interstate commerce commission giving operating cost and incomes of the country's principal express companies.

In November 1914 there was a loss of \$182,745, as compared with a profit of \$132,235 in November, 1913.

For the five months ending with November 1914 the companies' net profit was \$72,951 as compared with a \$1,722,009 profit in November, 1913.

Opportunity to get into trouble comes much more frequently than the other variety.

Woman's Health

Requires Care

Women are so constituted as to be peculiarly susceptible to constipation, and their general health depends in large measure on careful regulation and correction of this tendency. Their delicate organisms rebel at the violence of cathartic and purgative remedies, which, while they may afford temporary relief, shock the system and seriously disturb the functional organs. A mild laxative is far preferable and, if properly compounded, much more effective.

The combination of simple laxative herbs with pepsin sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin, is ideal for women's use. A free trial bottle can be obtained by writing to Dr. W. B. Caldwell, 452 Washington St., Monticello, N. H.

SAYS ATTACK WAS PLANNED

LONDON, March 10.—Thomas J. McNamara, parliamentary secretary of the admiralty, this afternoon ridiculed Count Von Bernstorff's explanation at Washington that the German submarine attack upon the British hospital ship Asturias was an error.

Speaking in the house of commons, McNamara said that on the night the submarine attempted to torpedo the hospital steamer the sky was clear. It would have been impossible, he said, for the submarine to have mistaken the character of the ship.

GERMANS MOVED BACK NEARLY TO BORDER SAYS SLAVS

However Enemy Is on Off
fensive at Two Points
North of Vistula

PETROGRAD, March 10.—The German army that attempted to seize the Warsaw-Petrograd railway at Grodno has been pushed back six miles, according to reports reaching here from Warsaw today. It is now battling with the advancing Russians east of Augustof and less than twelve miles from the Prussian frontier.

In their advance into north Poland, following the retirement of the Russians from the Mazurian lakes, the Germans moved eastward along the railway and road leading from Augustof to Grodno. In their retreat they have been driven from the road. The progress of the Russian advance has forced the enemy to abandon a number of their heavy guns in the swamps, Warsaw reported.

The enemy has again taken the offensive at two points north of the Vistula. Northeast of Lomza and north of Plock, the Germans have delivered attacks. The latest dispatches from Warsaw indicated that German bombardment of Ossowetz was continuing.

Austrian forces north of the Lupo pass in the Carpathians have made slight gains, by throwing superior forces against the Russians. In the Stanislaw region, nearly an entire Austrian battalion, forming part of the right wing of the enemy retreating from the Dniester, was cut off and forced to surrender.

"Whys" of European War Moves Explained By Military Expert

(BY J. W. T. MASON.)

NEW YORK, March 10.—11 a. m. —Further indication of unsatisfactory labor conditions in England is contained in the bill which is being rushed through parliament, empowering the government to take over all industries of the country capable of being used to produce war supplies.

This step practically puts the workers under martial law, without definitely pronouncing the formula for military rule. It has undoubtedly been made necessary because of the refusal of English workmen to subordinate their class interests to the nation's war time requirements. British labor is adopting the attitude that since capitalists can get war contracts at abnormally high prices, workmen should have a share of the good fortune. The workers are particularly insistent because of the increased cost of living since the war began.

The strikes that have been ordered to enforce the high wage policy have curtailed the output of war supplies. But, this is not the only cause of munition shortages. It is customary among large numbers of British skilled workers to accept employment for only enough days in the week to keep themselves and their families in very modest comfort. They have no desire to increase their standard of living by working harder. In some cases, full time employment

for four or five days a week will provide workmen with sufficient shillings for their week's wants. When this happens, they quit for the other days of the week.

It is to prevent British voluntary idleness as well as to take compulsory means for ending strikes that the government has asked for socialistic powers.

Should the workmen be no more amenable to public control than they have to private regulations, the government will be in a quandary. There is no machinery in the British civil administrative system for compelling men to work; and military rule, even under formal martial law, always makes possible among Englishmen an uprising to protect English liberties.

The socialistic inclinations, however, of the British working classes may come to the government's assistance. How socialism will work in actual practice has always been strong debating ground in England. Now comes an opportunity to determine whether government and labor, operating together, are more efficient and more satisfactory than capital and labor. Momentous consequences to British industrial life may hang on the outcome. This is the reason why Bonar Law, leader of the opposition in the house of commons described the government's enabling bill as probably the most drastic ever laid before parliament.

MANY CHIMNEY FIRES

MADISON, Wis., March 10.—State Fire Marshal Host reported today that there were 237 fires in Wisconsin during February, with a total loss of \$368,545. In the corresponding month last year there were 230 fires and a loss of \$291,080. The

cold weather during the early part of the month resulted in an unusual amount of chimney fires, there being forty-one of this variety. One fire was caused by lightning.

FOUR AND HALF MILLION IN CASH PAID FOR MINE IN CRIPPLE CREEK REGION

COLORADO SPRINGS, Col., March 10.—Through the sale of the Golden Cycle mine, one of the biggest business deals ever made in this state, John T. Milliken of St. Louis today has virtually withdrawn from Colorado operations. In the sale of the mine \$4,500,000 cash was paid over for 95 per cent of the Golden Cycle stock by A. E. Carleton and his associates. The Golden Cycle mine at Cripple Creek was then re-sold to the Vindicator Mining company for \$1,300,000. The Vindicator company paid down \$50,000 cash, and the balance in six per cent notes.

Since the Golden Cycle Mining company was organized in 1895, it has paid \$8,000,000 in dividends. Last year's dividend was \$1,050,000.

HEYDE PLAYERS SEEK MANAGER SAID TO BE GONE

Payday Seems Long Way Off to Actors Stranded in La Crosse Today

Alone

"Troubles of a Thespian" will probably be its title, if Charles Marston, leading "heavy" in the Heyde Players company, or other members of that entertaining society ever write a book. And the story of their troubles will be a narrative of adventures dealing with La Crosse and the high cost of living.

The "Heyde Players" are "up against it right," according to members of their craft, but they hope to get together again by Monday. Yesterday afternoon they gave a performance at the theater which was made up partly of home talent actors, but they saved their advance sale. Tonight there may be no performance, nor tomorrow either for they can't find Philip H. Heyde, the proprietor of the stock company.

It is said members of the company, from whom, it is asserted, the advance man has divorced association, that they have several weeks' pay "coming." They will try to reorganize their company and continue the engagement here.

BREWERY MEN IN MILWAUKEE THREATEN STRIKE

MILWAUKEE, Wis., March 10.—Milwaukee's "fame" hangs in the balance today. Thirty-five hundred brewery workers announced that unless their employers accede to their demands for a new wage scale at once they will go on strike tomorrow morning.

The contracts between the Milwaukee brewery workers' union and the brewing companies, made three years ago, expired March 1. Previous to and since that date negotiations have been under way between the union and the Milwaukee Brewers' association. The brewers submitted a new scale Sunday. It was rejected. Another scale was rejected by the union late yesterday.

ARREST INDIAN LIQUOR SELLERS

MILWAUKEE, March 10. — Ten Indians and three white men who were indicted by the federal grand jury on charges of introducing and selling liquor in the Menominee Indian reservation, have been arrested and lodged in the county jail here. United States Marshal Wiel made public their names today.

The Indians are: Louis Kakwiche, George Pamoniect, Joseph Shawankasick, Robert Pyawassay, Louis Jonapaw, Louis Cowan, John Martin, Richard Corn, George Peters and William Miller. The white men are: Walter Long, Timothy McDonald, and Gabriel Shatsey. McDonald and Miller live in Gresham, while the others reside on the reservation. The offense with which they are charged carries a maximum penalty of eighteen months' imprisonment. Well said there are several men indicted who have not yet been arrested.

Note Was Too Squeaky to Be True. Bobby's mother sometimes permits him to run his chubby little hands over the piano keys. Last week he thumped the keys in the middle register with both hands and gurgled delightedly over the emanating discord. Then he touched the keys in the treble clef and finally reached the very last top ivory and jabbed it with one finger. Hearing the faint, squeaky little high note he looked around with a distressed smile and said: "Oh, muvver, it's broke!"—Kansas City Star.

Had a Better Name for the Baby. A literary mother in a town not a thousand miles away from Toronto Republican office exhibited her first born to a bachelor acquaintance. The infant set up a lusty squalling, and between yells the mother said: "We're—thinking of—calling her—Hypatia!" "Hub," grunted the bachelor, "better call her Hysteria!"—Kansas City Star.

ASYLUM EMPLOYEES TESTIFY FOR THAW

Defense Brings Out That Slayer Acted Normal; Story of Escape Is Retold

NEW YORK, March 10.—Muffled in a heavy sweater and suffering from a cold-stiffened neck, Harry Thaw today personally directed moves to establish his sanity. He caused his counsel to bring out by Matteawan attendants that he was never violently insane and that he acted normal.

A decisive test upon admitting sanity evidence was deferred. Justice Page, it was stated, is inclined to exclude such evidence except such as may prove Thaw knew the "nature and quality" of his acts in the alleged conspiracy by which he escaped from the asylum for the criminally insane. Matteawan employees graphically pictured Thaw's flight today. The prosecution has examined over half of its witnesses and hoped to rest late today. Lawyer John Anhalt, serving in Sing Sing for trying to bribe the Matteawan superintendent to release Thaw, was brought from the prison today to testify for the prosecution.

Thaw's attorneys stated this afternoon that they plan to put Thaw on the witness stand and have him tell the entire story of his escape. This course was decided upon to enable Thaw to show his mental condition and for any possible effect it may have on the jury.

JURY TRIAL FOR RECKLESS SIX

"Happy" Silas Green, Frank Brown, George Frohock, John Summers, John Gage and John "Red" Cook, charged with assault and battery on the persons of A. R. Fogel and H. Krueger, asked for a jury trial when arraigned in county court this afternoon. The trial will take place Monday. Following this argument they were re-arrested for "speeding" and will stand jury trial for this offense.

Returned Unused Medicine. Mr. Y. is considered the champion "thrifty" man of our town. Once two members of his family were ill for some time. When they recovered he collected all the bottles that had any medicine left in them and, taking them to the doctor, said: "Say, doc, there's quite a lot of this dope left and you might as well take it back and give me credit for it. You can use it and I can't."

FLEET FOCUSSES ON FORT WHICH HAS HELD STRAIT

Dardanelles Bombardment Today Concentrated on Namazieh Which Guards Narrows

THIRTY WARSHIPS NOW ENGAGED

Huge New Superdreadnaught Warspite Is Said to Have Joined Attack

FEAR FOR CHRISTIANS IN TURKEY

Fall of Constantinople Before Allies Likely to Enrage Moslems in Interior

LONDON, March 10.—Six British warships, headed by the superdreadnaught Queen Elizabeth, are concentrating their fire upon the batteries of Fort Namazieh, overlooking the Dardanelles narrows, according to Athens dispatches today. A determined effort is being made to silence the guns of Namazieh, which have so far swept the strait for a distance of several miles and blocked the advance of mine sweepers.

The newest monster of the seas, the superdreadnaught Warspite, is believed to have joined the allied fleet. Admiralty officials have virtually admitted that another big battleship of the Queen Elizabeth type is in action. The Warspite was laid down five days after the Queen Elizabeth, was launched November 26, 1913, and is now reported to be battering the Turkish forts with her fifteen inch guns.

Nearly thirty French and English warships, the admiralty admitted today, are now shelling the Ottoman defenses. In addition to these, a dozen other powerful fighting craft are unofficially reported to be in action. The aggregate tonnage of the Anglo-French naval forces at the Dardanelles is nearly six times that of the entire Spanish armada of ancient days.

Slaves 100 Miles From Porte. The Russian fleet, Petrograd reported today, is steaming slowly westward along the coast of Asiatic Turkey toward the Bosphorus. It has sunk several small Turkish steamers utilized as supply ships by the Turkish fleet and is now reported less than 100 miles from Constantinople.

The admiralty professed to have no word today regarding the operations at Smyrna, where Rear Admiral Peirse's squadron is reducing the Turkish batteries. No reports were made public concerning the operations of the French fleet shelling the Bulair forts on Gallipoli peninsula.

It was officially denied today that the Queen Elizabeth had suffered any serious damage in the Dardanelles fighting. In meeting the Turkish claim the admiralty merely referred inquiries to the official statement from the French ministry of marine last night. The French statement said that the Queen Elizabeth is inside the strait bombarding the defenses of the narrows.

Fear for Christians

WASHINGTON, March 10.—Fears for Americans and in fact all neutral Christians in Turkey, were growing here. It is admitted that Constantinople is in actual danger of falling before the allies. Its fall, it is feared, will be followed by a running amuck of the moslems throughout interior Turkey. Ambassador Morgenthau and his staff have been told to keep in close touch with the situation. For weeks they have been impressing upon the high Turkish officials that no matter what happens in the war, foreigners must be protected. Up to the present they have been uniformly successful.

Await Blockade Order. This feature of the international situation was today occupying the attention of the administration. So far as the Anglo-French blockade against Germany is concerned, the president must wait until the allies act. Up to the present time they have not molested American shipping in any way. The order in council explaining how the blockade is to be enforced remains unissued. Germany's latest submarine raid may hasten it. The sinking of three merchantmen in one day, with the loss of 37 men, naturally is expected to enrage England against the Germans to such an extent that the severest reprisals will be suggested.

Remarkable Water.

My little niece, five years old, went to visit an aunt who lived on a large farm. Among other improvements on the place was a deep water well, the water of which tasted of sulphur. Upon being asked about her visit on her return home she said, after telling of the many individual things she had seen: "It was all fine, mamma, but the water tasted cowy or piggy or sumthing."—Chicago Tribune.

TWENTY DOLLAR MAN WAS POOR "HUBBY"

Cruelty Is Accusation of Woman Who Seeks Separation from Highly Paid Spouse

Although she has been married for thirty-three years and has five children and a husband who earns from eight to twenty dollars a day when he works, Mrs. Mary Ghoca asked the circuit court here today to liberate her from the bonds of matrimony. She married Homer Ghoca in 1882. Mrs. Ghoca charged in her complaint that her husband has been cruel to her.

Mrs. Mathilda Domstreich claims in her papers against her husband today, that he lost ten cents and accused her of stealing it. She also charged cruel and inhuman treatment. Mrs. Domstreich has two children.

Tomorrow will be motion day in circuit court. Divorce cases of Lula Kinder vs. Joseph Kinder, and Carrie Cordell vs. Lawrence P. Cordell, which were continued, will be heard.

men, denied she either used dope or drank. But the doctors knew better.

Some Get "Dope." Other women groaned in agony. They begged for "another shot." Some got it, for Dr. Davis explained they cannot be shut off absolutely from their supply at once.

Some victims had not slept for nights and nights, since their supply was shut off. They were nauseated and in pain.

"Hundreds of thousands of dope victims throughout the country are hit by the Harrison law," said Dr. Davis today. "Their relief is a big broad humanitarian problem. Chicago alone has tens of thousands of users. And we intend to do what we can for them in the county hospital until they can have treatment in the state hospital. We must restore their stamina and will power and build the bodies if they are to overcome the habit."

Authorities Alarmed. Police headquarters and hospitals are daily besieged by increasing numbers. The situation is alarming the authorities and they are planning co-operative efforts with a view of stopping as far as possible a wave of crime they now fear so much.

Medical organs today joined the crusade in an effort to have a state supplementary law to check physicians from supplying "patients."

Argument for Law

WASHINGTON, March 10.—The "dope" situation in Chicago, as pictured by United Press dispatches, is a "mighty good argument" for the Harrison law, was the comment today of Assistant Secretary Newton of the treasury department, which is charged with the statute's enforcement.

Because, continued the secretary, if the "fiends" are being driven wholesale to hospitals, it means that many will be cured.

FIRST ARRESTS OF DOPE SELLERS IS MADE IN CHICAGO

CHICAGO, March 10.—What were declared to be the first arrests under the recently effective Harrison antidope law were made today when revenue officers charged "Abe" Jackson and John Pool, both of Gary, Ind., with violating the new statute. The men were arrested here today.

Arraigned before United States Commissioner Mason today, Jackson was held in \$1,500 bond for action by the grand jury. Pool was set free. Evidence adduced at the hearing today sent federal officers to Gary to arrest a man named Ford, who is charged with belonging to a gang of dope dispensers who cached great quantities of drugs at Gary and Hammond.

UTAH GOVERNOR TO VETO DRY BILL

SALT LAKE, Utah, March 10.—Prohibition is expected to fail in Utah today. It is believed Governor Spry will veto the "dry" bill passed by the legislature. Opponents of the measure declare the veto will not be able to muster a two-thirds majority necessary to pass the bill over the governor's veto.

Various Forms Of Headache

"It is necessary in order to treat headaches properly to understand the cause which produces the affection," says Dr. J. W. Ray of Rockford, Ala. Continuing, he says: "Physicians cannot even begin the treatment of a disease without knowing what the headache is to be treated according to the same rule. We must not only be particular to give a remedy intended to counteract the cause which produces the headache, but we must also give a remedy to relieve the pain until the cause of the trouble has been removed. To answer this purpose Anti-kamnia Tablets will be found a most convenient and satisfactory remedy. One tablet every three or four hours gives comfort and rest in the most severe cases of headache, neuralgia and particularly the headaches of women."

When we have a patient subject to regular attacks of sick headache, we should caution him to keep his bowels regular, for which nothing is better than "Actipol" and when he feels the least sign of an oncoming attack, he should take two A-K Tablets. Such patients should always be instructed to carry a few Anti-kamnia Tablets, so as to have them ready for instant use. These tablets are prompt in action, and can be depended on to produce relief in a very few minutes. Ask for A-K Tablets. Anti-kamnia Tablets can be obtained at all druggists.

FARMERS EXEMPT BY TERMS OF BILL

Ackley Would Free Them from Provisions of the Workmen's Compensation Act

BENNETT KICKS ON FAIR HELP

Fights Appropriation of \$3,000 to Send Educational Exhibit to San Francisco

MADISON, Wis., March 10.—Of the several new bills introduced in the senate today, two of the most interesting were introduced by Senator Ackley. One exempts farmers from the workmen's compensation act, and the other provides for the retirement of circuit court judges 70 years of age, after twenty years of continuous service. The pension is to be equal to half the amount of the full salary of the judge at the time of his retirement.

Senator Whitman introduced a bill reducing from 25 to 18 years the period a teacher must have been in service in order to be eligible under the teachers' pension and retirement fund.

Bennett Fight Fair Help

Senator Bennett raised vigorous objection to immediate action on the assembly bill to appropriate \$3,100 for the Wisconsin educational exhibit at the Panama-Pacific exposition. The total cost of the exhibit is about \$15,000, all of which has been raised by private subscriptions except the amount asked for in the bill. Senator Bennett insisted that unless the legislature carries its program of economy to the smaller appropriations, that in the end little headway will be shown in the total cost of government. The matter is scheduled to come up tomorrow. The bill to repeal the appropriation made by the 1913 legislature for a \$350,000 men's dormitory and commons at the university was passed by the assembly this morning by a vote of 69 to 24.

Vint Bill Affirmed

The joint resolution introduced by Assemblyman Vint of Milwaukee last week to amend the constitution to provide for the acquisition and operation of storage warehouses and grain elevators and which was passed by the house, was again sustained when the assembly refused to reconsider the vote on motion of Assemblyman Nelson. The vote was 34 to 37.

The bill to appropriate \$3,100 to send an educational exhibit to the Panama-Pacific exposition was reconsidered and passed by a vote of 85 to 6.

BOOZE AND CANDY MADE RICH MIXTURE IN HIS CARBURETER

It was some celebration while it lasted but it couldn't last said John Kinslar to the judge in police court today when he was called upon to explain a drunkenness charge preferred against him by two stalwart policemen.

Kinslar admitted that he had been "soused" and his appearance evidenced the fact. When in addition the policemen declared he had invaded a perfectly orderly candy store last night while in his cups and had insulted the lady proprietress and guests, Kinslar admitted that he had been "going some."

The court expressed judicial disapproval by sentencing Kinslar to 15 days in the city jail with the option of buying his freedom by paying the city \$12.50. The man is still in jail.

Six deeds for real estate aggregating a value of approximately \$5,000 were filed with A. E. Thompson, register of deeds, today.

Harry Scales transferred property in Scott's addition to Ferdinand Blaschke for a consideration of \$1,400.

Fred Cook today sold a small plot of farm land in the town of Farmington to Charles Lash for \$300.

Henry Cook has disposed of 80 acres of farm land in Farmington to his brother, Fred Cook, for a consideration of \$1,300.

August Wojahn has sold his property on North Fifteenth street to Joseph Feinberg for the sum of \$1,675.

Property transfers in the village of Onalaska were made today between C. A. Nemetz and T. G. Alken. The considerations are not known.

BITTER FIGHTING FOR NARROW STRIP IN THE ARGONNE

Attacks and Counter-attacks Cause Position to Change Hands Repeatedly

PARIS, March 10.—A narrow stretch of broken country between Four de Paris and Bolante, in the Argonne, is now witnessing the most bloody fighting occurring along the Franco-Flanders battle front, according to dispatches received here today.

The French demolished a blockhouse and pushed their trenches forward about eighty yards. The enemy swept on in a vigorous counter-attack in the afternoon that drove the French from the ground they had captured in the forenoon. Before dusk last night the French troops executed another daring charge. They sped forward under hot machine gun fire and again captured the trenches. The Germans early today again counter-attacked and the engagement is continuing. The ground is literally covered with dead and wounded. The fighting in the Champagne region continues. The Germans are stubbornly resisting the French charges and every yard gained is made over the bodies of German and French dead.

Northeast of Mesnil where the most violent fighting has occurred for several days, the French took a German trench yesterday and then seized the crest of the ridge commanding the road from Perthes to Maisons-de-Champagne.

The Germans delivered a violent night attack upon a French elevated position in this region but were repulsed.

Cold Hinders Operations

BERLIN, via Wireless to London, March 10.—Heavy snows and hard frosts have hindered operations along the French-Flanders battle front, except in the Champagne region, the war office announced today.

Northeast of Mesnil, the French forced the kaiser's troops out of a line of trenches. A German counter-attack regained the lost ground. In the eastern theater of war, a new Russian offensive east of Augustof was broken up by German artillerymen.

U-20 AND U-8 DESTROYED BY BRITISH PATROL

(Continued from Page One.)

Tangstan, Blackwood and Princess Victoria were torpedoed. The loss of the trio yesterday brings the total number of German "war zone" victims of fourteen. In addition to these several other steamers were torpedoed before Germany formally put into effect her submarine blockade on February 18.

The English press today demanded that the government now carry out its threat and try the crew of the German submarine U-8 as pirates.

"The crew of the U-8 are common pirates and murderers," said a writer in London Times today. "They should be treated as such and tried by common law. Let the world know that we count them as criminals, not honorable enemies."

WOMEN CAN HARDLY BELIEVE

How Mrs. Hurley Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Eldon, Mo. — "I was troubled with displacement, inflammation and female weakness. For two years I could not stand on my feet long at a time and I could not walk two blocks without enduring cutting and drawing pains down my right side which increased every month. I have been at that time purple in the face and would walk the floor. I could not lie down or sit still sometimes for a day and a night at a time. I was nervous, and had very little appetite, no ambition, melancholy, and often felt as though I had not a friend in the world. After I had tried most every female remedy without success, my mother-in-law advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and gained in strength every day. I have now no trouble in any way and highly praise your medicine. It advertises itself."—Mrs. S. T. HURLEY, Eldon, Missouri.

Remember, the remedy which did this was Lydia E. Pinkham's Vegetable Compound. For sale everywhere.

It has helped thousands of women who have been troubled with displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration, after all other means have failed. Why don't you try it? Lydia E. Pinkham Medicine Co., Lynn, Mass.

fifty-year franchises for every street in the city, including mine."

"How does that affect you?" persisted Bert, his eyes falling again to the check. That document looked so much like real money that he was inclined to believe it rather than Marley.

"Affect me!" protested Marley, warmed into a trifle more of life as he explained. "It renders my street-railway company a junk heap. We lose everything."

"But the sale," insisted Bert.

"Invalid. Coldman claims he was not authorized to act."

Bert ripped out an oath.

"I suppose that if the sale had been a profitable one you never would have heard of the invalidity."

Marley smiled, and shook his head.

"Then all our plans are off," discovered Bert. "The Porson tract is unsalable for enough to clear its own mortgage. Your stock and mine are worthless. You lose this house. I am stuck for the loan I made to give you control. We haven't money enough to go into business, and we can't go back East. Molly, it looks like a postponement!"

Jessie Peters edged closer, and slipped her arm around Molly.

"Not on my account," protested Marley, fumbling at his collar, and he arose feebly to adjust it before the mantel mirror.

Molly, seeing that he wavered, hurried to his support.

He turned to her, and put his hands on her shoulders.

"I'm sorry, Molly," he said simply, looking into her eyes with more fondness than he was in the habit of showing her.

"We can stand it," she comforted him. "After all, it's only just. I feel so much less wicked if we suffer with all the poor people we have helped to ruin."

A short laugh from Bert interrupted her, and she turned to him with a rising flame in her eyes; but little Jessie Peters had caught her hand, and was looking up into her face.

The minister, a tall chap who had won the hammer-throwing medal in his last year at college, had withdrawn discreetly to the parlor when the conversation had begun, but now came back apologetically.

"I am sorry to urge you," he observed, looking at his watch. "I have a brief appointment, but I can return."

"I don't know," hesitated Molly, glancing at Bert. "Wait just a minute."

The thin butler, who was now cross-eyed, came through the hall to the front door, which he opened, and a second later he was sitting in the umbrella rack.

"Say, youse!" bellowed the voice of Sledge, as his huge bulk, followed by Tommy Reeler, slammed back through the hall, filling the perspective like a ferry, crowding into her dock. "Is it all over?"

Fern was the first one to recover from the shock.

"No," she said meekly, but her eyes danced of the devil as they met those of Tommy Reeler.

"Then it's off!" yelled Sledge, and grabbed the startled Molly by the wrist.

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that—just that—makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath sour; tongue coated; your insides filled with bile and in-

digestible waste, remember the moment Pape's Diapepsin comes in contact with the stomach all distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapepsin will give you a hundred dollars' worth of satisfaction, or your druggist hands you your money back.

It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night.

It's the quickest, surest and most harmless stomach doctor in the world.

IT RUINS HAIR TO WASH IT WITH SOAP

Soap should be used very sparingly, if at all, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulsed coconut oil (which is pure and greaseless), is cheaper and better than soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulsed coconut oil at any pharmacy, and a few ounces will supply every member of the family for months.

of "Robin Hood," says:

"Tuxedo makes pipe-smoking a nerve-soothing, wholesome form of enjoyment. My pipefuls of Tuxedo are a daily source of pleasure and relaxation that prove a real benefit to me."

Tuxedo Makes Life
a Pleasant Tune

Smoke Tuxedo and your days will dance to pleasant thoughts. You're bound to be cheerful and happy with some of this superb tobacco tucked away in your comfy old pipe, or twisted into a fresh, smacking-sweet cigarette.

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

The reason Tuxedo's so healthful, wholesome and beneficial is because it's made by the "Tuxedo Process" from the finest, choicest leaves of Kentucky Burley—mild, mellow and rich.

This famous process absolutely removes all the bite and sting from the tobacco; Tuxedo can't bite your tongue, no matter if you smoke it all day long and half the night.

Don't bother with Tuxedo imitations. Get the original Tuxedo. If it's worth the other fellows' imitating, it's worth your insisting on!

NORMAL TOSSERS
PLAY TWO GAMES
DURING THE WEEK

Sputh's Men Go to Rochester Tonight for Game with Association Team There

PLAY WINONA PACKERS SATURDAY

Up-river Team Will Come to La Crosse for Return Game; Team Is Confident

The Normal school basketball quintet under the direction of Dr. Carl B. Sputh are to play a double bill this week. Tonight the team will be pitted against the Rochester, Minn., Y. M. C. A. at Rochester, and Saturday night they will meet the Inter-State Packers' association of Winona, in a return game at the Normal school gymnasium.

The team is confident of a win over the Rochester team and two weeks ago the Winona aggregation was defeated on their own floor by a score of 47 to 24. However, the game at Winona was not a steal as the score would indicate. The Normal men felt the game more than any other this season as the result of the rough play. Only superior teamwork by the Normal team prevented the up-river team from doing serious damage. Saturday night's game is scheduled in place of the canceled Normal-High school game.

GUN CLUB TO HOLD SHOOT
IN REMEMBRANCE OF "THE
WIZARD OF SPIRIT LAKE"

The Fred Gilbert Shoot, in commemoration of the twentieth anniversary of the appearance of Fred Gilbert, the "Wizard of Spirit Lake," will be held Sunday on the range of the La Crosse Gun club at Gillette and Rose streets on the north side. A silver loving cup will be given the winner of the event. One hundred targets will be shot. Similar shoots will be held by more than five hundred gun clubs throughout the country.

Twenty years ago, Fred Gilbert, a product of the prairie around Spirit Lake, Iowa, and entirely unknown to the sporting world outside of his own precinct, made his debut to the shooting game at Baltimore, and in the contest for the world's championship vanquished a field of the best shots ever gathered together. He instantly ascended to the topmost niche in the hall of trap-shooting fame, from which he has never been removed. Celebration of the incident will be carried on by a nation-wide movement.

PUT STOMACH IN
FINE CONDITION

Says Indigestion Results from an Excess of Hydrochloric Acid.

Undigested food delayed in the stomach decays, or rather, ferments the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by Hyper-acidity, meaning, there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten sours in the stomach much like garbage sours in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. Then we feel a heavy, lumpy misery in the chest, we belch up gas, we eructate sour food or have heartburn, flatulence, water-brash or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink while it is effervescent and furthermore, to continue this for a week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used by thousands of people for stomach trouble with excellent results. For sale by Charles Benschlag, Druggist, 503 Main street.

MANY CITIES WILL

Entry Blanks Have Been Sent to More Than Fifty Towns for Tourney to Be Held in Two Weeks

WINONA TO SEND MANY TEAMS

More Than Twenty Teams Will Register from La Crosse for First Event in Years

Entry blanks for the bowling tournament to be held here March 22 to 28 on the Malloy alleys have been sent to more than fifty towns and cities of Wisconsin, Minnesota and Iowa. It is expected that the majority of the places will be represented with one or more teams at the meet.

In deference to the request of Winona bowlers, Sunday, March 28 has been set as the closing date. Saturday was originally set as the date of closing. The change will enable ten teams or more from the Gate City to enter the tourney.

Several Minneapolis and St. Paul teams have already taken steps to enter the tournament, besides five men and two men teams and individuals from Madison, Prairie du Chien, West Salem, Bangor, Sparta, Richland Center, Tomah, Wausau, Grand Rapids, Eau Claire, Oshkosh, Beaver Dam, Rushford, Caledonia, Austin, Valerona, Lake City, Red Wing, Rochester, Owatonna, Faribault, Mason City, Iowa, and many other towns of the three states.

Twenty or more local five-men teams are expected to enter besides a number of two-men and individual entries.

RITCHIE HAS PLAN
FOR QUICK START

Will Spar Three Rounds Before Entering Ring for Fight with Welsh Tomorrow

BY BARRY FARIS
(United Press Staff Correspondent)
NEW YORK, March 10.—Willie Ritchie will have full steam on when he crawls through the ropes at Madison Square Garden tomorrow night to battle Freddie Welsh. The California pride has hit upon a plan which he thinks will insure his starting off like a whirlwind against the English titleholder.

Ritchie is a notoriously slow starter. In all of his bouts in the past the former champion looked like a beaten man for the first three or four rounds. Then he got warmed up and began to show his real class. Johnny Dundee is credited with licking him in a four round tilt. Ritchie grinningly pleads guilty to this and whispers "but watch us in a ten or twenty round go."

Tomorrow night, in his dressing room, about fifteen minutes before he is scheduled to enter the ring, Ritchie will begin sparring with one of his trainers. He plans to go at least three full rounds before he enters the ring. In this way, he believes he will be able to go at top speed against Welsh from the minute the opening song rings.

MISS KELLER IS ILL

AUSTIN, Texas, March 10.—Miss Helen Keller, who contracted a severe cold and was taken to a hospital here, was in danger today of developing pneumonia. The famous blind woman's lecture dates have been cancelled, pending her expected recovery.

BEBAN DESERTS TO THE MOVIES

Moguls in the managerial throne of theatricals have essayed time after time to solve the problematical situation, to tell with a degree of satisfaction just why the men and women who at one time emphatically asserted that they would never relinquish their grip on the legitimate stage have deserted and are continuing to desert the theater for the studio. And their only answer to their own questions has been an increased migration of celebrities from the ranks of the thespians.

Strange though it may seem, the latest of those who are regarded as stars to enter the world of motion picture performers is none other than America's premier interpreter of Italian characters—George Beban.

At one of the highest salaries ever paid for a single appearance, Mr. Beban was engaged by the New York Motion Picture Corporation to appear in a powerful story of the Ghetto, entitled "The Italian."

Thomas H. Ince, the far-seeing general manager of the New York Motion Picture Corporation, calculated the success which inevitably would crown Mr. Beban's efforts at motion picture acting and approached him with a flattering offer. Mr. Beban was busy with his vaudeville engagements. He declined, but Mr. Ince persisted. Then the distinguished character artist consented. Immediately Mr. Ince wrote "The Italian," outlining his character especially to fit the capabilities of the actor.

"The Italian" will be seen at the Bijou Thursday, Friday and Saturday of this week.

FRENCH TROOPS FOR DARDANELLES

BERLIN, via Wireless to Sayville, L. I., March 10.—Home dispatches received here assert that an Italian steamer encountered twenty French transports near Malta, headed toward the Dardanelles with French troops.

Achieving Importance.

"Some men," said Uncle Eben, "gets to be looked on as important because dey has to be hollered at all de time foh gittin' in de way."

"JITNEY BUS" COMES TO SPARTA WITH NEW FIRM

SPARTA, Wis., March 10.—(Special).—Motor busses similar to the "Jitney Bus" which is appearing in all large cities, are promised Sparta.

Millard and Ellis, owners of the Sparta Dray line, took possession of the omnibus line, for years operated by S. D. Edwards.

The new owners have installed a heavy motor truck for draying purposes, and will later purchase automobile busses for the purpose of carrying persons to and from the railroad stations. Horse drawn vehicles are being used at the present time.

Mrs. Mess Buried

Funeral services for Mrs. Charles Mess, who died at her home here on Monday, at the age of 62, will be held at 12 o'clock Thursday noon at the home. Services will also be held at the German Evangelical church.

NORTHWEST HAS GOOD PROSPECTS

Largest Amount of Cash in
Twin City Banks in
Years Predicts Good
Times

ST. PAUL, Minn., March 10.—(Special).—Despite the unfavorable conditions in other parts of the world, spring prospects in the northwest were never so bright. The bank statements made in St. Paul and Minneapolis Monday revealed the fact that there is \$218,000,000 on deposit in the two cities, which is an unprecedented amount.

The most optimistic reports come from the livestock raisers and farmers in the northwest. Millions of dollars are lying in the banks of St. Paul and Minneapolis, ready to be shipped into farming communities for spring work.

Prof. H. R. Smith, livestock expert, who is one the road lecturing for the First National bank of St. Paul, reports that the farmers of the northwest will not go in for a vast wheat acreage on account of the tempting high prices.

Floated German Loan

ST. PAUL, Minn., March 10.—(Special).—A loan for the German Empire is being floated in St. Paul. Many thousands of dollars are said to have been subscribed here. St. Paul banks endeavored to locate the American source of the loan yesterday but considerable mystery surrounded the transaction. Scores of people called at banks to subscribe to the loan.

Says Voorhees Lost Temper

WINONA, Minn., March 10.—(Special).—The board of education has made public a statement in regard to the failure to re-elect J. V. Voorhees as superintendent of the Winona public schools.

"On his return from the superintendents' convention at Cincinnati a few days ago," the statement says, "Superintendent Voorhees gave a disgraceful exhibition of temper about letters addressed to him in his official capacity having been opened by the board officers in his absence, which surprised the members of the board and showed a lack of the self-control and good breeding which should be expected of a man in his position, but this alone was not the cause of his dismissal."

Demand Farm Help

ST. PAUL, Minn., March 10.—(Special).—The demand for farm help has begun exceptionally early this year, according to J. H. Wilson, superintendent of the Minnesota Free employment bureau. During February Mr. Wilson sent out about thirty farm hands at wages varying from \$20 to \$25 a month with board. During the first nine days of March he received thirty applications for help.

Not a few farmers are asking for older men not able to perform hard tasks to do chores at wages from \$5 to \$10 a month.

EDUCATORS GATHER AND TALK SCHOOL

MADISON, Wis., March 10.—(Special).—The national conference on extension education opened here today with representatives present from every part of the United States.

Charles R. Van Hise, president of the University of Wisconsin, presided at today's meeting, which will be the only open session of the conference. He spoke on "The University Extension Function in the Modern University."

George E. Vincent, president of the University of Minnesota, discussed "The University Extension movement and its Present Opportunities and Possibilities."

Louis E. Reber, dean of the state university, will preside at the session tomorrow morning. J. W. Horwath, director of the University of California, will preside Thursday evening at a discussion of "University Extension Service in Civic Life," which will be debated by professors from the universities of Chicago, Kansas, Minnesota, Texas, Oregon and North Carolina. Representatives of the Universities of Indiana, Illinois and Ohio will talk on "University Extension Services in Social Welfare" at the meeting Friday morning, which will be in charge of Edwin A. Start, director of the University of Washington.

THE HEADACHE OF NERVOUS EXHAUSTION

A feeling as of a tight band about the head is often felt in addition to the pain of a headache that is caused by nervous exhaustion. The ache is generally in the back of the head, rarely in the forehead, and is often accompanied by dizziness.

The way to stop this sort of headache is to stop the cause of it. Overwork, worry and failure of the blood to properly nourish the nerves are the most common causes. Rest and a tonic for the blood and nerves will cause the headache to disappear in most cases.

Dr. Williams' Pink Pills are an effective tonic for building up the blood and strengthening the nerves. They furnish just the elements that the blood needs to build up the nerves shattered by overwork, worry, overstudy or excesses. You cannot always rest from school, office or household when circumstances require but you can always take a tonic that will maintain the strength of blood and nerves. Dr. Williams' Pink Pills are just the tonic required.

BIG MONEY IN VEGETABLES

For forty-one years I have loved and lived and worked among vegetables until today Salzer's strains excel! I wish to send you the following six generous packages:

1 pkg. Phila. First Early Cabbage	1 pkg. All Summer Long Lettuce
1 pkg. May 1st Carrot	1 pkg. A Mixture of Onions
1 pkg. Early Cucumber	1 pkg. Early Radish

In all six generous packages for 12c, containing enough seeds to supply you with rich, juicy vegetables, and lots and lots of them, during the early spring and summer.

In Seed Potatoes We Excel

Read the rich romance of Henry Schroeder, the Potato King of the Red River Valley, in my catalogue. He made a quarter of a million dollars, largely in growing potatoes. It is exciting reading.

Big Seed Book Free

My Seed Book is unique. It stands alone. It gives the honest truth in honest language about Vegetables, Flower and Farm Seeds. It is gladly mailed free. Or send 12c and receive the above six generous packages and my big catalogue free. (HENRY A. SALZER, President.)
